GYM GRASS FOR PETS!

OTHER BENEFITS:

Realistic appearance, evergreen in all seasons

Easy installation & low maintenance

Soft like a summer breeze

Easy to clean up

Strong and durable

Argo™ Grass makes for a fun, hygienic and comfortable recreation place for your pets!

Your furry friend will play, run, jump and stretch just like on real grass, save for the mess and muddy paws. The incredible softness and smooth touch takes away the worries about your pets suffering any injuries, and let you be confident about their safety healthwise. You can establish a special bond with your pet by giving them the very best they deserve, and relish the moments you share.

WHAT MAKES ARGO™ GRASS SO IDEAL FOR PETS?

Argo™ Grass is specially designed with AegiPro© tech, which is a patented technology developed by CCGrass especially to adapt the grass to meet the needs of your pet. AegiPro© tech inhibits the growth of bacteria and mold on the grass surface, as well as preventing the generation of odors. Those features let your furry friend enjoy a very clean recreational environment and avoid health issues like allergies or infections.

Argo™ Grass is free from fluoride, VOC and formaldehyde. It is completely safe for pets, even if they happen to lick or chew on it.
